BECOME AN EASY-TO READ VALIDATOR

Risa is a partner in project Train2Validate.

The project is a part of the Erasmus+ program.

Plena Inclusion Madrid from Spain manages the project.

The project is meant for people who want to train

to become validators or facilitators.

People with intellectual disabilities

will have the opportunity

to train to become validators.

A validator helps to validate texts in Easy-to-read.

They may have better opportunities for employment.

In 2021 we did a lot of things in the project.

In the survey we asked validators,

facilitators and other experts

about Easy-to-read and validation of Easy-to-read.

We looked for professions that are similar

to the profession of a validator and a facilitator.

We made skill cards.

In the skill cards,

we wrote what the validators and facilitators

need to learn to do their job well.

In October 2021, Tatiana and Saša

were in Madrid, Spain.

The project partners, validators,

facilitators and other experts in the field of Easy-to-read

came to the event.

They talked about many things.

Tatjana and Saša presented the work of RISA

and experience in Easy-to-read validation in Slovenia.

In 2022, we will test train validators and facilitators.

The project Train2Validate will end in 2023.

You can follow the project on the website.
